Program Description

The Arts and Cultural Alliance of Sarasota County established this grant program to provide direct assistance to Sarasota County artists and recognize exceptional work to support further development of their talents. The John Ringling Towers Fund -- Individual Artist Award supports artists' as they explore and refine their craft. It also provides artists with valuable recognition and affirmation from their peers and the public.

The program is designed to recognize emerging and practicing, professional, creative artists residing in Sarasota County through monetary awards.

The John Ringling Towers Fund -- Individual Artist Award was created to honor the spirit of the John Ringling Towers, where the visual, performing and applied arts were all celebrated. This fund is managed by the Arts and Cultural Alliance of Sarasota County, the Gulf Coast Community Foundation, and the Community Foundation of Sarasota County.

In collaboration with the Hermitage Artist Retreat, Inc., the top-scoring grantee in each discipline will receive a residency at the Hermitage Artist Retreat in Manasota, FL. The Hermitage requires that, in exchange for this residency, the artist contribute to the Hermitage public programming. The Alliance may also require a public presentation of the artist's work, the venue to be determined on a yearly basis.

A merit-based program, the Individual Artist Award provides grants of up to \$3,000 in recognition of exceptional original work. The number and size of awards will vary according to the number of applications reviewed and the funds available.

Apply

Applications must be completed online: <https://form.jotform.com/211515245433144>

Prepare

- Read this guide and view the online application form
- Attend a Grant workshop
- Create an artist's statement and other text materials offline before going to the online application.
- Prepare up to five work samples
- You cannot save your application and come back to it, so preparing material ahead of time is important.

Tips for Producing a Better Application:

- Focus on how the grant will “make an artistic difference” if you are awarded funds. Grant funds are scarce. Therefore, funders want every dollar awarded to be *significant*. In the Artist Statement, include specific details about how your successful proposal will help meet your artistic goals.
- Prepare your text offline and copy and paste the information into the online application. It is easier to edit in a regular word processor and you have the added benefit of saving the document on your computer to use for another application. The online form cannot be saved and returned to, so it is important to have your material ready to complete the form in one session.
- Be aware of the character limits – which include spaces. Fashion your responses to make your point within the limits.
- Review the Scoring Guide that will be used to evaluate your application prior to writing your proposal. If your proposal does not seem to “match” what is being measured on the Scoring Guide, you may be better served to seek funding through other grant programs. If your proposal does look like a match with the Scoring Guide, focus on demonstrating excellence in every area that is evaluated. Likewise, avoid addressing too many elements of your proposal that are *not* covered in the Scoring Guide.
- Before you submit your application, ask someone unfamiliar with your work to read the entire proposal and review the work samples.

Application Due Date: Friday, September 10, 2021 at 5:00 p.m.

Late or incomplete applications will not be accepted. No material may be submitted after the deadline.

Receipt Notification:

You will receive an email acknowledgement when you have successfully submitted your proposal.
