Elling Eide Center- COVID-19 Workplace Safety Protocols

The Elling Eide Center prioritizes the health and safety of our workers, vendors, and guests.

All Visitors and Vendors are requested to wear a mask when entering the Center. The Elling Eide Center provides masks and hand sanitizer.

Guests/Visitors attending outside tours, are NOT required to wear masks but we do encourage social distancing.

All Staff are requested to wear a mask when walking around the Center in the common areas. Staff is not required to wear a mask while they are seated in their offices working. A mask should be worn by both parties if you are entering another staff members office.

- **Covid 19 Testing:** All unvaccinated workers will be provided with a rapid test, at least weekly.

We plan on regularly evaluating and updating this policy based on the evolving guidelines provided by state and local public health officials.
